z repeat-command repeat	x	c c-god	v set-insert-like-state v looks like an insert mark	b insert-register bank	n smarter-backward ←	m qsearch-previous-at-point	, beginning-of-expression ~	. end-of-expression ~	/ qsearch-next-at-point	
space select region										

Left-hand text region specifiers:

q select-outside-quotes	w select-word	e	r select-justline	t select-with-spaces
a select-borders	s select-wim symbol	d select-document	f select-word	g select-org-table-cell
z select-content	x select-outside-pairs	c select-inside-pairs	v	b select-block

Color corresponds to the type of expected argument:

- (Reserved key)
- (Prefix map)
- A region
- A search space
- A character
- No Argument
- First an enclosure, then a region
